

Surgical Division- Trauma and Orthopaedic Department

Cemented Total Hip Arthroplasty

Introduction

Your consultant has added you to the waiting list for a Cemented Total Hip Arthroplasty which is a procedure to replace your hip joint with an artificial one. When you attended the out-patient clinic you will have been provided with written information about this procedure, including pre-operative and post operative information and guidance. [If you did not receive written information please contact the Orthopaedic Department, on 0151 604 7712.](#)

Guidance for Patients

Common reasons for having a Cemented Total Hip Arthroplasty are:

- Osteo-arthritis
- Inflammatory arthritis
- Avascular necrosis

While you are waiting for your procedure your consultant may recommend an alternative management or treatment to support your symptoms. It is important that you consider these options too in the short term to support your well-being.

This may include

- Lifestyle changes
- Medication
- Remaining mobile

What should I do if my health is deteriorating?

If you feel you are becoming more unwell, please contact the Pre-operative Team on 0151 604 7104 in the first instance or your Consultants Secretary.
