

Dermatology Service

Introduction

The Covid pandemic has had a significant impact on the NHS ability to provide routine elective services. We recognise that patients are waiting longer than we would all like and it is not always possible to identify when treatment will take place. This document provides you with information on how you are able to support yourself while waiting to attend the hospital. The guidance has been written by clinicians who are responsible for your care.

Please read the following information in conjunction with the staying healthy guidance appropriate for your condition.

Guidance for Patients

If the symptoms related to your dermatological issue – please see below for details of what to do.

Some people change their mind about having a dermatological treatment. If you are not sure whether you still want or need to have it done, please contact the secretary of your named consultant to discuss this.

What should I do if my health is deteriorating?

If you are having further concerns regarding your dermatology issue, it may be necessary to get another appointment with your consultant. Please contact the secretary of your named consultant to inform them of the situation, and they will bring this to their attention as necessary. If you cannot find the name of your consultant please contact any of the Secretaries as they will be able to direct your query in the most appropriate way.
