

Centre for Reproductive Medicine – Surgical Sperm Retrieval

Introduction

The Covid pandemic has had a significant impact on the NHS ability to provide routine elective services. We recognise that patients are waiting longer than we would all like and it is not always possible to identify when treatment will take place. This document provides you with information on how you are able to support yourself while waiting to attend the hospital. The guidance has been written by clinicians who are responsible for your care.

Please read the following information in conjunction with the staying healthy guidance appropriate for your condition

Guidance for Patients

Information regarding surgical sperm retrieval is available at the following address:

<https://www.uhcw.nhs.uk/ivf/treatments/ssr/>

What should I do if my health is deteriorating?

If your health is deteriorating, you may need to be seen by your Consultant for review and further assessment and management. The secretarial numbers of the Gynaecological Consultants are shown below

In an emergency situation we would suggest you attend the Emergency Gynaecology unit for assessment.
