

Orthopaedics – Total Hip Replacement

Introduction

The Covid pandemic has had a significant impact on the NHS ability to provide routine elective services. We recognise that patients are waiting longer than we would all like and it is not always possible to identify when treatment will take place. This document provides you with information on how you can support yourself while waiting to attend the hospital.

Guidance for Patients

It is important that while you are waiting for your surgery you remain as active and as medically fit as possible. If you have any long-standing conditions such as high blood pressure you should get this reviewed at your Doctor's surgery to make sure it remains well controlled. This will also help prevent any unnecessary delays when you come for your pre-operative assessment. Maintaining a well-balanced diet is also important, as is reducing any excessive weight that may be impacting on your general health. If you are a current smoker, it would be advisable to seek support to help with stopping, advice can be found at your local pharmacy or Doctor's surgery or via the Oxfordshire Stop smoking service.

Oxford University Hospitals has a dedicated free health and wellbeing support service called Here for Health for staff, patients, their families, and visitors at OUH.

Here for Health forms part of the Trust's Clinical Support Services and offer holistic health and wellbeing information and support for patients as part of their care pathway. [Here for Health - Oxford University Hospitals \(ouh.nhs.uk\)](https://ouh.nhs.uk)

Here for Health focuses on what matters to you and offer a range of support methods to help you plan for:

- giving up smoking
- becoming more active
- eating a healthy diet
- reducing alcohol intake
- self-care for general wellbeing
- managing weight.

We tailor your consultation to your individual needs, to make it as easy as possible to adopt small, sustainable, and realistic lifestyle changes to improve your health and wellbeing.

We have a wide range of resources and can help you access a variety of community services, including free stop smoking and weight management support. **01865 221429** hereforhealth@ouh.nhs.uk

Being Active

There are lots of ways to get or keep active across Oxfordshire including walks and cycle routes as well as activities suitable for families and older people.

[Ways to Get Active | GO Active \(getoxfordshireactive.org\)](#)

What should I do if my health is deteriorating?

If your condition suddenly worsens whilst you are waiting you should seek advice.

Urgent Health Advice

For urgent health advice about physical or mental health, when it's not an emergency, please call 111 from any landline or mobile phone. You can also visit www.nhs.uk. The NHS 111 service is available 24 hours a day, seven days a week.

Life Threatening Emergencies

For something life threatening – severe bleeding, breathing difficulties or chest pains – please dial 999.

GP surgeries

GP practice staff are also helping patients to manage their conditions at home while they wait for hospital appointments.

My Planned Care Patient Information Platform

GP surgeries are still open and are working differently to how they did before the COVID-19 pandemic and GP practices continue to make best use of telephone, online and video consultations. Face-to-face appointments are still being given to those who need it.

When you phone or use an online form to contact your GP surgery to make an appointment, you will be asked some questions which are designed to help staff guide you to the most appropriate clinical person to help you with your condition. This could be a nurse, clinical pharmacist, physician's associate, GP or paramedic.
