

Orthopaedics – Total Knee Replacement

Introduction

The Covid pandemic has had a significant impact on the NHS ability to provide routine elective services. We recognise that patients are waiting longer than we would all like and it is not always possible to identify when treatment will take place. This document provides you with information on how you can support yourself while waiting to attend the hospital.

Guidance for Patients

It is important that while you are waiting for your surgery you remain as medically fit and active as possible.

If you have any long-standing conditions such as high blood pressure or diabetes you should get this reviewed at your doctor's surgery to make sure it remains well controlled. This will also help prevent any unnecessary delays when you come for your pre-operative assessment. Maintaining a well-balanced diet is also important, as is reducing any excessive weight that may be impacting on your general health. If you are a current smoker, for the best outcome from surgery it is advisable to seek support to help with stopping. Alcohol consumption should be within accepted limits.

You should continue to take your prescribed medications and only stop after consultation with your GP.

Dental health is important ahead of joint replacement surgery to reduce risk of infection. Likewise, if you suffer from urinary tract infections, this needs to be addressed ahead of surgery.

It is recommended that you take regular exercise (20 minutes per day until you are short of breath, increasing a bit at a time). Take a brisk walk or consider an exercise bike.

Support is available at **Healthy Cornwall** to help you with:

- Weight management
- Healthy eating
- Stopping smoking
- Physical activity

Contact **Healthy Cornwall** at:

- Telephone - 01209 61500
- Email – healthy.cornwall@cornwall.gov.uk
- Website – www.healthycornwall.org.uk

We want to help you manage your osteoarthritis during these challenging times, when the delays to normal elective surgery mean you are not getting your surgery as quickly as we would like. There are some very useful websites that can help you to manage some of the symptoms you are experiencing and guidance regarding help and support that you may be able to access:

My Planned Care Patient Information Platform

Age UK - <https://www.ageuk.org.uk/information-advice/health-wellbeing/conditions-illnesses/arthritis/>

Age UK provides information on activities and exercise class held by local Age UK representatives. They also signpost to advice on healthy eating options and maintaining a healthy weight especially important if you are being considered for surgery, and some of the options available to get help in the home (<https://www.ageuk.org.uk/information-advice/care/arranging-care/homecare/>)

Versus Arthritis - <https://www.versusarthritis.org/>

Versus Arthritis is an arthritis charity, especially geared towards helping individuals manage differing forms of arthritis. They have useful online exercise programmes especially designed for those with painful arthritic conditions that will help maintain flexibility. They also offer self-help tips for managing arthritic pain.

NHS Website living with arthritis - <https://www.nhs.uk/conditions/arthritis/living-with/>

This website carries useful information for those still at work and dealing with the impact of arthritis and useful links to financial and local government websites that may be able to offer you further support in your home.

Good Mental Health

There are many ways you can keep your mental health fit and well, just as you would your physical health.

Support is available at [Mental health - NHS Kernow CCG - NHS Kernow CCG](#)

Other Useful Information

What should I do if my health is deteriorating?

If you are concerned that your condition or symptoms are deteriorating since you were referred to us, please contact the Planned Care Patient Support Team on 0800 0357777. You will be asked to detail the changes in your condition/symptoms since seeing your GP at the time you were referred or following listing for surgery, and this will be passed to the clinical team will re-assess your priority.

Urgent Health Advice

For urgent health advice about physical or mental health, when it's not an emergency, please call 111 from any landline or mobile phone. You can also visit www.nhs.uk. The NHS 111 service is available 24 hours a day, 7 days a week.

Life Threatening Emergencies

For something life threatening – severe bleeding, breathing difficulties or chest pains – please dial 999.
